

What to expect

Documentation collection and registration process will be completed by you and provided to our friendly team.

You will be contacted by the clinic to confirm whether the information provided is sufficient to complete the service.

Payment will be requested at this point.

A timeframe for completion will be provided to you.

The nurse will provide you with:

- A written plan for any catch up vaccinations needed. You can use this when engaging with the vaccination service provider of your choice.
- A print out of your Australian Immunisation Register (AIR).
- Information regarding vaccination and preventable diseases in Australia.

Overseas Immunisation Documentation Catch Up Service

About

Welcome to our Overseas Immunisation Documentation Catch Up Service. Our experienced immunisation nurse is here to help you register overseas vaccines and create a comprehensive catch-up plan.

How it works

- ✓ **Step 1- Documentation collection:**
You will be required to bring in original hard copies of all previous vaccination records from all countries where immunisation has been performed. Ensure any non-English documents are translated by an official service prior to commencing this service. You may wish to utilise TIS <https://translating.homeaffairs.gov.au/en>.
- ✓ **Step 2- Complete Immunisation Documentation Catch Up Service Registration Form**
- ✓ **Step 3- Registration and Planning:**
Our nurse will register your vaccines and create a tailored catch-up plan.

Requirements and costs:

Patient Requirements:

- Original copies of all previous vaccination documentation from all countries where immunisation has been performed.
- Official translations for any non-English documents.
- Completion of application form.

Cost:

The service is offered at a flat rate of \$180.

Note: Due to the complexity of this process, we kindly ask for your patience. You will be informed of an estimated completion date once all required documents have been submitted and application accepted by the nurse.
